iv. Top 5 competitors of India's top 5 exports

S.No.	Commodity	Competitors	Strategy of competitors (pricing, quality, distribution network, local tie ups etc.)
1	Pharmaceuticals	Germany, Cuba, Brazil, France, USA, Colombia	High quality products (Germany, France), High quality and low-cost products, special agreement with Government (Cuba)
2	Autoparts	USA, China, Colombia, Brazil, Panama, Japan	Most of the vehicles present in Venezuela are of US or Asian manufacture. There's a major scarcity of autoparts causing a decrease in the number of units on the road.
3	Textiles	China, Panama, Peru, USA, Colombia	Low cost and low-quality products (China), Geographical proximity in distribution network (Panama, Peru, Colombia)
4	Spices	Brazil, Spain, Colombia, Germany, Chile, Indonesia	Geographical proximity in distribution network (Colombia, Brazil and Chile)
5	Chemicals	USA, China, Netherlands, Mexico, Spain	Geographical proximity in distribution network (USA, Mexico)

v. Potential products of exports for India

S.No.	Description	Rationale
1	Pharmaceutical products	Venezuelan pharmaceutical industry is severely affected by the lack of private investment and relies heavily on the imports for drugs and pharmaceuticals. India is one of the leading manufacturers and exporters of pharmaceuticals in the world and enjoys acceptance in the Venezuelan market due to its quality and competitive prices.
2	Auto-parts	India is one of the top manufacturers of auto-parts in the world. Venezuela is in dire need of auto-parts for all kinds of vehicles.
3	Food products	Local production of food has been severely affected by shortages of raw materials. The country is heavily dependent on imports to meet the demand. Basic foodstuffs such as maize, flour, grains, milk are scarce and may be exported by India.
4	Oil and gas machinery and spare parts	Venezuela needs oil and gas industry machinery and spare parts to reactivate their oil industry. The Venezuelan oil industry uses machinery and parts which are US standards compliant, and India manufactures such items compliant with US standards at lower rates.
5	Textiles	Venezuelan textile industry needs raw materials for its production. Indian fabrics are highly appreciated by the Venezuelan textile industry. Indian dresses are also liked in Venezuela.
6	Electric Steel	Venezuelan power generation industry requires an approximate of 5,326 metric tons of two grades of electric steel to be used in the recovery of 20,000 transformers in 2020.
7	Raw materials for plastic	Local plastic industry is operating at 20% capacity due to shortages of raw materials. The industry is currently importing materials from Brazil and Colombia, which have been found to be expensive by them.

Ambassador Abhishek Singh administered the pledge on the occasion of the 'Anti-Terrorism Day': Ambassador Abhishek Singh administered the pledge on the occasion of the 'Anti-Terrorism Day' to the Embassy Officials today. [Read More](#)

Venezuela welcomes investment in energy, mining and agribusiness:

According to statements by the Executive Vice President, Delcy Rodríguez, at the Eurasian Economic Forum, she stated that Venezuela is open to receiving "Significant Investments" in oil and other sectors, in addition to have a legislative framework adapted to bring investments in a safe and transparent manner. [Read More](#)

OTHER NEWS

Venezuelan economy grew in the first quarter of 2022:

According to the Venezuelan Finance Observatory, the Venezuelan economy registered a growth of 7.8% during the first quarter of 2022, coming out of the recession of 2019 and 2020. This growth is mainly due to the increase in oil production; however, this level of economic activity was 32% below the value of the same period in 2014. [Read More](#)

Venezuela signs contract to repair El Palito refinery:

The Venezuelan government signed a contract with Iran to repair the El Palito Refinery, located in Falcon state. The amount of the contract amounts to 110 million euros, added to this

is the recent import of Iranian heavy crude oil to the Naftiran company. The agreement also establishes the exchange of Iranian condensate for Venezuelan heavy crude.

The US will renew Chevron's license in Venezuela without broader terms:

The United States Government will renew Chevron Corp's license to operate in Venezuela in the coming days, but without the expanded terms sought by the oil company, this renewal will be renewed as it was in 2020, however, a final decision has not yet been made. [Read More](#)

Venezuela's economic recovery could take 3 decades: According to ECLAC,

despite having the third highest economic growth in the region, it would still be below its production 9 years ago. In 2021, it only produced 22% of what it generated in 2013. Credit Suisse estimates that Venezuela could grow 20%, driven by changes in the world oil supply and high raw material costs derived from the Russia-Ukraine conflict. [Read More](#)

Chevron could raise Venezuelan production by 33% without US sanctions:

That would raise the company's production in Venezuela to 200,000 barrels per day, according to people familiar with the situation who asked to remain anonymous to speak publicly on the matter. Production could reach 300,000 barrels per day next year, they said. Production of 500,000 barrels per day is possible by 2026 or 2027. [Read More](#)

The fall of Wall Street drags the Asian and European stock markets:

Asian and European stock markets posted losses on Thursday, dragged down by Wednesday's sharp drop on Wall Street, triggered by investors' fears about the consequences of inflation. [Read More](#)

According to OPEC: Venezuelan oil production rises 6.4% in April:

According to the monthly report of the Organization of the Petroleum Exporting Countries (OPEC) published on Thursday, Venezuelan oil production increased by 6.4% in April compared to March, from 728,000 barrels per day (bpd) to 775,000 barrels per day (bpd). [Read More](#)

Venezuela starts importing Iranian heavy crude for refining:

Last year, Venezuela and Iran initially agreed on an exchange agreement, whereby PDVSA imported Iranian condensate to

dilute and process its extra-heavy oil for export and, in return, shipped Venezuelan crude through the National Iranian Oil Company (NIOC). [Read More](#)

Venezuela's commercial sector registered a growth of 86% in two years:

The activation of traditional businesses reached between 16% and 19%; from 5% to 6% in industrial businesses; from 13% to 15.6% in the services sector; and from 12% to 14% in the leisure sectors. [Read More](#)
